Attn: State House Committee for Families, Children & Seniors

Dear Distinguished Committee Members:

I am writing in support of Representative Kevin Daley's House Bill 4109 which bans partial birth abortion; and Representative Ben Glardon's House Bill 4110, establishing criminal sentencing guidelines for those who perform this procedure. I appreciate their efforts toward abolishing this horrific activity of partial birth abortion.

The quality of our culture is driven by the level of respect for the sanctity of life from conception until natural death. These bills represent a positive step toward addressing a great injustice in this nation—the blatant disrespect and lack of reverence for the unborn.

Citizens for Traditional Values is one of Michigan's premiere grassroots, faith-based organizations working for 25 years with hundreds of citizen voters and elected officials concerning pro-life, pro-family, limited government and educational freedoms. We join other groups like ours, in speaking on behalf of thousands of individuals across Michigan who *strongly believe we must create a culture of life in our state once again*. And the mentioned policy will move us towards this goal!

I ask you to support this legislation by moving it out of committee. A generation of those yet unborn—who have no voice in this debate—are depending on you and your colleagues to give them a chance to live.

Thank you for your service to Michigan and to the next generation.

Sincerely,

James Muffett  
President
